Global Sit Rep – Data in Healthcare

- Struggling with interoperability between systems

- Variable operationalization of open access platforms between health systems and health and care systems – municipalities

- Limited examples of success encouraging people to access their records and participate in their own health and care

- Patchy uptake of uploading "wearables" data

- Significant differences in interpretation of data governance requirements even within single countries

Insights - Cybersecurity

- Why cybersecurity?
  - the EMR from 100% to 10%....
  - One system to a multitude of systems
  - Phishing becoming much more multilayered and more sophisticated
  - Not if but when …

HIMSS *Europe* 18

EUROPE
2018

Insights – burnout

- The sea of red flags…

- Making a difficult job even more difficult

- Solutions:
    - Attention to physician interface essential
    - Big bangs can hurt people …. And systems….And you….
